

Backlog (Remaining Weeks) ...

- Use Tableau to illustrate and build out the model
- Code out and populate the US map with data
- Build (code) prediction calculator
- Connect prediction calculator to map
- Design and build cohesive data visualization experience/storytelling

Todo (Current Week) ...

- Scaffold basic US map (per county) in D3
- Plan/design D2 visualizations based on data findings
- Design prediction calculator (API endpoint? UI?)

Doing (Current Week) ...

- Explore Food Environment Atlas, USDA branded foods, and what we eat in America datasets - brainstorm predictors

  Nov 23

G  RL TD
- Finalize and organize predictors, data sets

G  RL TD

Done

...

- Reply to Zona re: project plan, food distribution vs. MBTA

RL
- Upload data to GH repo

👁

🍹
- Organize Project Plan notes from meeting and add to GH repo

G
- Submit Project Plan on Canvas

G
- Scaffold basic web application
